

Important Investment Notes

Investments, and the income from them, can go down in value as well as up, and you may not get back the full amount invested. The past is not necessarily a guide to future performance. Yields are variable and neither capital values nor income are guaranteed. In addition, if you withdraw from some investments in the early years you may not get back the full amount invested as they are intended as long term investments. This website is provided solely to enable clients to make their own investment decisions. It does not constitute a personal recommendation to invest. These investments are not suitable for everyone and if you have any doubt whether they are suitable for you, please e-mail info@pulseind.co.uk for specific advice and full details.
